

***EXPERT ON COUNTERING VIOLENT EXTREMISM  
IN THE  
GEOGRAPHY COLLOQUIUM***

***Dr. Royce Hutson***

Associate Professor, School of Social Work  
Boise State University  
Jefferson Science Fellow, National Academy of Sciences

Will Discuss

***Mapping Violent Extremism:  
Challenges and Next Steps***

Professor Hutson's research focuses on, measuring the health and mental health impacts of natural disaster and armed conflict using advanced population-based survey methodologies, and on best practices in repatriation, rehabilitation, and reintegration of spouses and children of foreign ISIS fighters returning to their countries of origin. He assisted in developing some of the initial technology that utilizes satellite/aerial geocoded imagery to sample households in difficult environments.

***Friday, November 13<sup>th</sup>***

**3:00 - 4:15 PM Central**

**Online:** <https://minnstate.zoom.us/j/99070205470>
