

Dr. Dan Houlihan's Research Team Application

Applicant Name: _____

- | | |
|--|--|
| <input type="checkbox"/> Freshman | <input type="checkbox"/> Junior |
| <input type="checkbox"/> Sophomore | <input type="checkbox"/> Senior |
| <input type="checkbox"/> Graduate (yr 1) | <input type="checkbox"/> Graduate (yr 2) |

GPA > 3.5 > 3.0 < 3.0

Most current projects are in these areas:

- Youth environmental focus
- Interventions with the elderly
- Adolescent reinforce choices
- Forensic studies related to police training
- Other areas of interest will be addressed as they are presented

NOTE: This is a “vertical” research team, which means it is made up of faculty, graduate students, and undergraduate students. Much of your mentoring will come from working with graduate students. Collaborative credit will be assigned in accordance with the amount of time and effort put into projects.

Instructions

On the next page, please provide a brief statement of interest that includes:

- A description of why you are applying to be a part of this research team and what you hope to gain by being a part of the team.
- Whether you plan to attend graduate school after earning your bachelor's degree.
- The name of one professor in the department who would be able to substantiate your skills, abilities, and ambitions.

A complete application to the research team will also include:

- An unofficial transcript.
- A vita or academic resume that summarizes experiences, and accomplishments

E-mail this statement of interest, along with all other application materials, to Daniel.Houlihan@mnsu.edu. I will follow up by arranging a time for us to meet and discuss your interests.

APPLICATION DEADLINES:

Fall applications are due no later than September 15th

Spring applications are due no later than January 15th
