We are excited to announce the first episode of HSS Insights (adapted from the former SBS Insights series). HSS Insights is a series of conversations with faculty showcasing unique research and work focused on creativity, innovation, public service, and addressing social issues.

The latest episode features Dr. Fei Yuan, department chair and a professor of geography specializing in remote sensing and Geographic Information Systems (GIS). Her work used these tools to survey Woodlands Hills Cemetery and its historical records. During the process they mapped the cemetery and converted historical texts to digital records.

The College of Humanities and Social Sciences was represented by an amazing float designed by professors Pocket Toscani and Todd Shanafelt, along with students in the Department of Creative Arts. This year’s homecoming theme was “Mavericks in Paradise.” Students and faculty worked tirelessly to deliver a spectacular float once again.

Fall 2023 Homecoming

Homecoming Parade

At this brand-new, family-friendly, community event, the College of Humanities and Social Science hosted a booth to promote the college and its programs. Even Provost David Hood stopped by to get in on the fun and snap a few pictures! The cast of “Rent” also made an appearance to promote their show. Finally, the Maverick Machine stopped by to hype everyone up for the game.

First “Mavericks on the Mall” Event

The HSS Advising Office participated in the homecoming office decorating contest. With the theme “Mavericks in Paradise,” they definitely made Armstrong Hall a little more tropical.
To Vietnam and Back: A Veteran and Alumnus Story of War, Protest, Campus, and Beyond

In honor of Veterans Day, we were honored to host Vietnam War veteran and alumnus Bill Strusinski on Nov. 8 to share his story in a special interview-style event moderated by Randal Dietrich, executive director for the Minnesota Military Museum. The event celebrated Mr. Strusinski’s story as a combat medic, college student, veteran, government official and lobbyist. Thanks to all who joined for a night of meaningful dialogue and inspiration. If you missed the presentation, a recording is available on our website.

Dr. Donald Friend Invited to Partake in National Academy of Sciences Panel

This September, Dr. Donald Friend was invited to be on a panel at the National Academy of Sciences (NAS) in Washington, D.C. Other panel invitees included Ambassador Samantha Power, Administrator of the U.S. Agency for International Development (USAID). As a Jefferson Science Fellow of the NAS, Dr. Friend served AY 2019-2020 as Senior Science Advisor in the USAID Office of Global Climate Change.

Dr. Friend was invited to present aspects of his experience as a senior science advisor and his career developments since then. He also discussed future directions for the Jefferson Science Fellow program.

High-Impact Learning in Undergraduate Geography Course

The Geomorphology class (GEOG 315) had a great fall field season as they embarked on several field trips to St. Croix River valley/North Shore of Lake Superior and the Minnesota River valley.

The trip to St. Croix and North Shore of Lake Superior was funded by the NSF FRES project. Students learned how to run ground penetrating radar, describe sediment cores, and made observations/interpretations about the geoscience in the Lake Superior basin. Students visited Interstate State Park, the St. Croix Dells, and stopped to learn about catastrophic glacial meltwater flooding and the formation of the St. Croix River valley.

During the trip to Minnesota River valley, students assessed landslide risk within the Minnesota River valley tied to a prior EARTH Systems Lab project part of a statewide effort to assess landslide hazards.

Student-Created, Environment-Themed Sculpture Piece on Display

Abby Lundebrek created the “Corruption (2023)” sculpture out of everyday trash and other materials manipulated into unrecognizable forms and then added recognizable found objects to the sculpture, including artificial turf and a playground dome. It was designed to show the veil through which we see our environment.

Abby said her goal as an artist is to seamlessly meld found objects into fabricated ones, where the viewer cannot tell what is bought and what is created.

HISTORY AND GENDER STUDIES

Social Studies Education Students Selected to Attend Colonial Williamsburg’s Teachers Institute

Social Studies Education majors, Jack Baumbach and Abbey Botko, were selected to attend the Colonial Williamsburg’s Teachers Institute. The institute is a national program for 7th-12th grade professional teachers and has a highly competitive application process. Minnesota State University, Mankato is the only university in the nation that is allowed to send pre-service teachers and has done so since 2016. With the quality of students from Minnesota State Mankato from the past few years, two college students were able to attend this year.

**Sociology Students’ Drive to get Echo Food Shelf on Bus Route**

The Echo Food Shelf was added to the Downtown Express Route 7 on Monday, Nov. 20. This route is much more convenient to students in need. Route 7 is totally financed by Mankato Area Transit and is not part of the student subsidized “U-Zone” bus routes up on the hill by campus.

Sociology professor, Dr. Carol Glasser, along with her students have been working on the food insecurity and transportation issues in Mankato. Mitchel Pomije, especially, worked hard and spoke at the city’s transportation summit and won the best student paper award from the Sociologists of Minnesota for some of this research.

Dr. Glasser and Mitchel attended multiple focus group and listening session with the region 9 city planners and presented at a local transportation summit. One of the recommendations from these studies was to extend a bus route to Echo Food Shelf and has been adopted by the city. This was due in large part not only to the research but to the persistent advocacy and education efforts the students engaged in.

“This is truly what sociology is,” said Dr. Glasser, “Social justice through a combination of studying an issue, conducting research to understand the issue, and engaging in advocacy based on that knowledge!”

**Students Attend Sociologists of Minnesota Conference**

Sociology students attended the Sociologists of Minnesota - SOM conference at Gustavus Adolphus College on Oct. 13.
Social Justice Lecture Series Features Events “For the Birds”

Other events included “Birding for Everyone” with presenter May Vang from the Minnesota DNR’s Bird by Bird Project, and an Invasive Plants Clean-Up day at Minneopa State Park.

Scholars Serving Time Program Celebrates Its Graduates

Congratulations to our two graduating classes of Minnesota State Mankato’s Scholars Serving Time Program. Graduates of the program earned their associate degree from the University.

On Jan. 26, 2022 the program held a graduation recognition event at men’s correctional facility in Faribault. There were 8 graduates (one was unable to attend). This was a facility-led ceremony that only allowed four Minnesota State Mankato faculty to attend.

On July 13, 2023 a commencement ceremony that was led by the University within the Shakopee facility. This is believed to be the first university-led commencement in Minnesota to takeplace within a prison. Provost David Hood led the ceremony and conferred degrees. Dr. Timothy Berry, Interim Associate Vice President of Faculty Affairs & Equity Initiatives, served as the keynote speaker. Assistant Vice Chancellor Jesse Mason from the Minnesota State System Office also attended and participated in congratulating students as they received their degrees. Faculty who taught at the facility over the last couple years also attended. Graduates were able to invite family members and each had the opportunity to speak briefly about their experience in the program.
If you were to choose a song that would play every time you entered a meeting, what song would you pick and why?

---

**Dr. Chris Brown, Dean**

I would start the meeting with “Welcome to the Jungle” by Guns N Roses and then I would end the meeting with “Livin’ on Prayer” by Bon Jovi. I then would go back to my office and listen to “Waterfalls” by TLC, and then drive home playing “Fast Cars” by Traci Chapman ... and as I get closer to home, I would play “Freeway of Love” by Aretha Franklin.

---

**Dr. Chip Panahon, Interim Associate Dean**

My choice would be “One Love” by Bob Marley. I believe the song puts most people in a good mood when they hear it. As a faculty member, I usually play this song before my first lecture of every semester.
